The three last mentioned were all watch officers on various vessels of the American fleet, July 3, when the naval engagement off Santiago was fought. It has been the desire of the court to secure as much testimony as possible from the men whose especial duty it was to keep a lookout, and these three officers were summoned to gratify this wish. There was a special interest in Commander Wainwright's testimony because of his prominent identification with the Spanish War, and also because of the fact that he is now superintendent of the Naval Academy at Annapolis.

INTEREST INTENSIFIES. PHILIPPOPOLIS (Bulgaria) Oct. 8.-Public interest in the fate of Miss Ellen M. Stone, the kidnaped American mis-sionary, intensifies here. There is wide-apread condemnation of the govern-ment for allowing such freedom to the Macedonian Committee as to enable it to engineer the outrage.

Miss Stone resided here before she went to Salonica, and she is well known throughout the country. The patriotic Bulgarians are incensed, as they recognize that Miss Stone and her colleagues of the American missions in Bulgaria and Macedonia have been their best friends throughout the troubles. After the formal opening of the House of Deputies today, a rule proposed by the Committee on Rules was adopted, providing that no new business shall be introduced after Saturday, October 13, except by permission of a two-thirds vote.

A majority report of the committee was made that it was not prepared to make any recommendation upon the memorials from Milwaukee and Colorade; that the name of the church as it appears upon the title page of the prayer book-be changed.

A majority report was presented recognizing that a constitutional amendment would also be required, and asking that the whole matter be referred to a special committee to be appointed by the chair.

A similar majority report was made in regard to the resolution of the Rev. B. W. R. Tayler of Los Angeles. The committee further reported a recommendation that the public concur in the action of the bishops providing for marginal readings; also that they could not advise the authorization of the use of the revised version in reading the lessons.

of the revised version in reading the lessons.

The committee also reported that it was the opinion of the committee that the table of lessons was not a part of the prayer book in the sense that the constitutional provision for the amendment of the prayer book applied to it. The reading of the minutes developed a question of the correctness of the vote by which the Huntington amendment was declared adopted yesterday. It was claimed that the clerical vote of Nebraska was wrongly recorded in the affirmative. The minutes were corrected, making the clerical vote of Nebraska no. This changed the result, defeating the measure.

Report of Immigration Commission Recommends Safeguards from Alien Criminals and Illiterates.

are given for the principal countries:
Southern Italian, 86,229 males, 24,396
femsiles: Polish, 25,466 males, 12,170 females; Hebrew, 23,343 males, 19,894 females; German, 17,238 males, 19,894 females; Slavik, 19,309 males, 7622 females; Northern Italian, 14,290 males,
9881 females.

The total number of deportations for
the year, a decided decrease as compared with last year, was 3059. Following are the given causes:
Public charges, 2394; contract laborers, 130; insane persons, 13; diseased,
232; convicts, 6; one-year cases, 286.
Of the total of immigrants, 41,738
were alien residents returning to this
country.

Of the total of immigrants, 41,738 were alien residents returning to this country.

As a means of protection against the coming of convicts, fugitives from justice or anarchists, says the report, the presence of our inspectors abroad would be either futile or unnecessary. These inspectors would naturally be dependent on local authorites for information of this kind. If no efforts were made to secure such information, their certificate as to the non-existence of bad antecedents would be worthless. If they were to assume the right to exact evidence of an unobjectionable police record from him, why not, it is asked, make it at once a requisite for admission to the country or make the absence of such a record upon arrival a prima-facie evidence of criminality?

But even the above procedure would not offer a complete solution of the dimeulty. It is perfectly proper to adopt any measures to prevent the coming of such people, provided the method is not likely to degenerate into a mere annoyance to legitimate travelers. In our own case we need not establish new precedents to enable us to accomplish this object. The precedent is aiready established in the amendment to the allen-labor law, which the courts have construed to apply to all the excluded classes. There is no reason why the same procedure should not be extended to cover all apply to all the excluded classes. There is no reason why the same procedure should not be extended to cover all cases of undesirable aliens, whether of the excluded class or not, and without limitation of time, proper legal safeguards being provided against abuse of this power."

The increase of the head tax to \$2 and an extension of the period of jurisdiction over the immigrant from two to five years is recommended.

RAILROAD RECORD. **NEW RATE ON** PETROLEUM

State Board Decides Bakersfield Case.

Highest Figure Reduced Over Four Cents.

Two New Directors of the Union Pacific Elected. Santa Fe Stocks.

SAN FRANCISCO, Oct. 8.-The State aliroad Commission today rendered a ecision in the case of John Le Bianc s. tae Southern Pacific and Santa Fé railroads in favor of Le Blanc. The suit involves the shipment of crude petroleum from the Bakersfield dis-trict. The contention was whether the Two of the commissioners, C. S. Lau-meister and E. B. Edson, have found that it was unreasonable. They ascer-tained that the profit of carrying amounted to 8.4 cents on every bar-

amounted to 8.4 cents on every par-rel of petroleum, so they have fixed a new rate of 37.8 cents, which will take effect November 1. Commissioner N. Blackstock, in a voluminous opinion, dissents from the decision on legal grounds, and conto show that the former rate is unrea-sonable, or to establish grounds that would justify the board in setting

cludes that the complainant has failed to show that the former rate is unreasonable, or to establish grounds that would justify the board in setting aside said rate and promulgating a new one in its stead.

The maximum rate to be charged for all crude petroleum from Bakersfield to San Francisco, or from all points where the 42-cent rate prevails now, after November 1, be reduced to 37.8 cents per barrel. The decision of the board on the question of charges for switching cars on spurs and side-tracks is reserved until the next regular meeting, which has been set for November 12.

Other matters of minor importance came before the commission. The Maryswille Ice and Cold Storage Company, in a letter to the commission, complained of unjust discrimination by the Southern Pacific Company in the matter of rates from Marysville to surrounding towns, the rate charged being greater than to other places of equal distance. A table of rates was attached. The commission ordered that a copy of the letter be sent to the Southern Pacific Company, and action be postponed awaiting the reply.

The Vestern Mineral Company asks for a reduction on freight charges between Bakerafield and Daggett. The mine and mill owners and lessees at Daggett ask for a reduction in the rate on crude oil from 38 a ton to 44 a ton, or from 65 cents per barrel to 20 cents per 100 pounds. The secretary of the commission was ordered to notify the on crude oil from as a ton to 44, a ton, or from 65 cents per barrel to 20 cents per 100 pounds. The secretary of the commission was ordered to notify the Santa Fé company and enclose a copy of the letter,

UNION PACIFIC MEETING.

SALT LAKE CITY (Utah) Oct. 8. United States who arrived from abroad. From a comparison of the steerage immigration for the last two years it is shown that nearly 30,000 of the increase of last year over the year before was in the immigration from Southern (Italy alone. The number of returning alien residents stands at 1.6 of the total immigration. The amount of money brought per capita there appears to be an appreciable increase over last year, but the report says:

"The conclusion, unfortunately, is unavoidable that our immigration is constantly increasing in illiteracy. Not only are we drawing more and more from the countries where illiteracy is high, but also the immigrants themselves are showing higher percentages of illiteracy. Nearly one-half of our steerage immigrants now present an illiteracy of from 40 to over 50 per cent."

Of the 288,321 steerage allens who arrived during the year, the following are given for the principal countries: Southern Italian, 88,322 males, 24,328,55 females: Polish, 25,465 males, 12,70 few went and meeting. Two new directions, and the contemplated to the temporary directors H. W. Krech and F. P. Voorhees. Considerable business was transacted at today's meeting, including the reading of drafts of the annual report of the Union Pacific, setting forth the condition of the road, and the contemplated improvements.

The following board was elected to serve during the ensuing year: Oliver Ames. Horace O. Burt. T. Jefferson Coolidge, Jr., Thomas T. Eckert, Louis Fitzgerald, George J. Gould, Edward H. Harriman, Marvin Hughitt, James H. Hyde, Otto H. Kahn, Charles A. Peabody, Winslow S. Pierce, Henry H. Rogers, Jacob H. Schiff and James Stillman.

President Burt and other officials who arrived from the East this morning will remain over until tomorrow, when the annual meeting of the stock-

ing will remain over until tomorrow, when the annual meeting of the stock-holders of the Oregon Short Line will take place.

shown on the chart in question, obtained from testimony taken by the board or from a general discussion by the members of the board?"

"Almost entirely by general discussion by the members of the board. Capt. Chadwick and Capt. Cook appeared and discussed the matter with the board."

"From the position of the Gloucester at the commencement of the battle of July 3, could you see both the Brooklyn and the Texas?"

"I don't remember seeing the Brooklyn and the Texas at the commencement of the battle."

"What orders, if any, were signaled by the Brooklyn to the fleet during the engagement of July 3?"

"I saw none."

Rayner: This does not mean that no signals were displayed, does it?

Witness: No, it does not.

By the Court: Did any one of the Spanish vessels change her course to the southward, as if intending to ram one of the fleet?

Witness: I saw no signs of it. Commander Wainwright was then excused, and Lleut. M. L. Bristol, former watch and division officer of the Texas, was called. He had only related the arrival of the Texas at Clenfuegos and detailed the conditions there when the court took a recess for luncheon.

LIEUT. M. L. BRISTOL.

LIEUT. M. L. BRISTOL.

Lieut. Bristol continued his testimony at the afternoon session of the court Speaking of the blockade of Clenfuegos he said he had observed the signal lights on the shore near Cienfuegos, but had not understood their significance. The witness also described the blockade ff Santiago. Hanna here asked the witness:

off Santiago.

Hanna here asked the witness: "If the vessels of the Spanish squadron had suddenly appeared, what orders had you to meet such a contingency?"

"No orders were turned over to me in regard to a contingency of that kind." replied the witness.

"As watch officer, should you have had such orders?"

"I should have had."

Lieut. Bristol them spoke of the Spanish shore batteries, saying: "I personally examined them the day we arrived there, and satisfied myself that the batteries amounted to nothing."

Lieut. Bristol said that, in the morning of July 3, he had fixed the position of the Texas, and also, generally, of the other ships of the fleet, and had prepared a chart showing these positions. He considered the initial position assigned to the Texas, the Brooklyn and the lowa, as accurate.

The witness described the engagement of July 3, saying that the Spanish fleet had come out only sufficiently far to clear the shoal near the mouth of the harbor before turning to the westward. He did not think this was to exceed 1500 yards out from Cayosmith, which is inside the harbor.

Lieut. Bristol said that after the engagement began he went below and fired three shots from the twelve-inch guns. When he came on deck, the first of the Spanish ships was going ashore.

"We were then," he said, "headed to the content of the spanish ships was going ashore.

ashore.

"We were then," he said, "headed to the westward, with the enemy's ships running close along a point seven miles west of Santiago."

"Did you see the Brooklyn when you came on deck?"

"I did."

"Where was she at that time?"

"She was about as far out on our port bow, relatively speaking, as the Spanish ships were on our starboard how."

time?"

"I don't know. She did not make any turn after that, and always kept on to the westward. At that time, I did not know anything about a turn."

"You did not see what is known as the loop?"

CHASE OF THE COLON. Lieut. Bristoi then detailed the part that the Texas played in the battle, giving the details of the chase up the Cuban coast. Describing the close of that pursuit, he said: "We continued on with the chase of the Colon, which was then ahead of the Viscaya, in the same relative positions, the Brooklyn, Oregon, Texas, and afterward at the oregon, Texas, and afterward at the end of the chase, the New York joined in it. I forgot to mention that the Vixen was outside the Brooklyn during this time, and the Viscaya sheered inside and kept about abreast of us until we overhauled her and went ahead, until the Colon finally turned inshore and headed down her deep The Texas of the Colon finally turned inshore and headed down her deep The Texas of the Colon finally turned inshore and hauled down her flag. The Texas

then joined the rest of the ships at the prize and remained there that night." Hanna inquired: "From the position you occupied during the chase could you or could you not determine which of the vessels was leading?"
Witness replied: "I could, with the distinctness with which the ships could

be seen, note the positions."
"What did you estimate as their

"What did you estimate as their relative positions?"

"That was obtained comparatively. The distance to the Coion was from about three or three and a half miles to four miles, up to five or six miles at the end of the chase. She drew away from us slowly. The Brooklyn and Oregon were considerably closer to us than the Coion. The Oregon was closer than the Brooklyn, so that the Brooklyn was leading, as regards the distance from us that she was out on our bow."

In response to questions by Rayner, Lieut. Bristol said that he had made his chart because of his interest in the battle, and that he had prepared it a few days after the battle, and stated that, "to the best of my knowledge and belief, the chart is right."

Rayner called attention to the fact that the witness had said that at the beginning of the battle the Brooklyn was heading north and east, while Lieutenant-Commander Hodgson, who had been aboard the Brooklyn, had said the vessel was heading north and west.

"Which is right?" he asked.

"I believe I am right," the witness replied.

"You can't both be right."

"That is right, too."

In response to further questions, Lieut. Bristol said his chart had been stored away for some time, but that previously he had had several blupprints made of it.

At Raynor's request the witness made measurements showing that, according to his chart at the beginning of the fight off Santiago, the nearest Spanish ship to the Brooklyn was 3300 yards distant.

Rayner asked: "How can you

ship to the Brooklyn was 3300 yards distant.

Rayner asked: "How can you reconcile that statement with that of Lieutenant-Commander Hodgson, that the range at the time of the turn of the Brooklyn was 1400 yards?"

"I cannot reconcile my statement with that of Lieutenant-Commander Hodgson.

"Then these two statements are perfectly irreconcilable?"

"A range of 1400 yards at the time of the turn of the Brooklyn is absolutely irreconcilable. My idea is that, with a stadimeter at 4000 yards it is not an accurate instrument, and that is what they state they took measurements with. Also, in smoke of battle, it is almost impossible to take ranges accurately. It was a good deal of an estimate. Also I have heard, I don't know how true it is, the ranges on board the Brooklyn were taken by an enlisted man. I don't question the enlisted man. I don't question the enlisted man's accuracy, except that I would think an officer's accuracy would

be greater than that of an enlisted Lieut, Bristol was still on the stand when, at 4 o'clock, the court adjourned.

He was, however, un-able to bring out any point which would materially benefit the "scrippers" " con-tention. He laid great stress on the meaning of the word "vacant," as meaning of the word vacant, as used in the application for land grants and in the act authorising the taking up of public lands. This phase of the question seemed to be the only one which was of interest to Judge Van Dewhich was of interest to Judge Van De-vanter, and when Linkenback began his argument, he requested the latter to stick closely to a construing of the word "vacant" and the decision al-ready handed down on this point. be reached by the Cabinet and be announced next Friday.
One great difficulty about granting this concession is that Mr. Knox does not know whether Mackay and the other Commercial Cable Company men who are asking for it are acting for their own company with the intention of laying the cable themselves or for the Eastern Cable Company of England, which already has cables in the Philippints, China and Japan from England. The belief here is that Mackay is acting for the Britishers, and that if the concession were granted him, the cable ng for the Britishers, and that it the concession were granted him, the cable vould be built by British money and secome, instead of an American cable, British line connected with other British lines to Manila and Hongkong, Such a condition would come no-where meeting the ideas held by Con-gress concerning the Pacific cable, and the granting of a concession under these circumstances would be certain to provoke a good deal of Congressional criticism.

The Chinese exclusion law expires next year, when it will have been in force for ten years, and it is currently reported that the Mongolians in this country are being levied on for contributions to push their interests at Washington. Minquestioned regarding reports from the West that a systematic campaign was being waged there to prevent the re-enactment of the Geary act, as the exclusion law is known. Minister Wu appeared in the reception room of the legation in the costume that is so familiar to Washingtonians, dark green flowing robes. Chinese shoes and a black turban, with a flashing jewel in front.

Wu was much interested in the report that a lobby is being organised to help his countrymen in legislation at the national capital, but disclaimed all knowledge of it, and very vigorously denied that he was connected with the movement. In response to questions, the Minister talked at length of the existing law that excludes Chinese, and also gave some reasons why it should not be reënacted. Our people do not possess the wonderful faculty for organizing that you Americans have, and certainly I have not been informed that a movement has been started for this purpose in the West. However, I am very glad that attention is being directed to the Chinese question, and I hope that the newspaper editors of the country will take it up and discuss it thoroughly. "The Geary act was passed at a time when there was great popular prejudice against the Chinese, and that law was proposed to satisfy the laboring element. I have looked into the matter thoroughly myself, and if the Senate or House should call on me for information, I would be glad to reply to any argument that the presence of Chinese here is harmful to American interests. All that I ask for my countrymen is fair play, justice and a full hearing. I want them treated on the same footing with other people. If the Chinese have peculiar faults which distinguish them from the rest of the world and justify their exclusion, why, exclude them by all means, but I would not have them refused admission because of their virtues. If, after full investigation of the matter, it should be deided that the admission of Chinese gation of the matter, it should be de-cided that the admission of Chinese to the United States would injure any of the people here, I would not utter a single protest against the re-enactment of the law."

WAR ON BEET SUGAR. CUT AFFECTS ALL MARKETS.

CUT AFFECTS ALL MARKETS.

IBY THE NEW ASSOCIATED PRESS-A.M.1

BAN FRANCISCO, Oct. 3.—Another aggressive move has been made by the American Sugar Refining Company in the campaign which it has begun against the beet-sugar industry. The cut in the price of granulated sugar to all Missouri Biyer points, which was

against the beet-sugar inquatry, and cut in the price of granulated sugar to all Missouri River points, which was announced last week, will be followed by a reduction in beet and cane sugars in all States from Colorado to California. The reduction was announced by the Western Sugar Refining Company, and amounts to 30 cents a hundred on cane sugar and 20 cents a hundred on cane sugar.

Robert Oxnard, vice-president of the American Beet Sugar Association, which is opposing the trust, said:

"It is a fact that the Western Sugar Refining Company has made a decline of 20 cents per hundred on their beet sugars. This makes a difference in their price between cane granulated and beet granulated of 30 points instead of 10 points, as herectofore. The cut affects all markets from Colorado to California, inclusive. I know of no change in the general sugar situation to account for it. Further than this, I do not care to discuss the matter at

present.

In order to discriminate further against beet sugar, the Western Sugar Refinery, which is allied with the sugar trust, has announced that it will ensugar. The reduction in prices has also affected Hongkong sugar, of which there is a small supply in this market.

INDIAN JOE PETE KILLED.

TRAILED BY HIS BROTHER. (BY THE NEW ASSOCIATED PRESS-P.M.) CARSON (Nev.) Only last week the Indian murdered his father-in-law, and nearly killed another Indian in the camp.

other Indian in the camp.

Pete was arrested for the murder of Dangberg and convicted. On the day set for his execution, he made his escape from the County Jail. Rewards aggregating \$2000 were offered for his capture. He was heard from many times, but the white men did not care to try to capture him in the mountains, and the Indians would not lend assistance.

After the murder of the Indian, the tribesmen held a consultation and ap-pointed Pete's brother as the party to kill the murderer. The result was the latter's death, early this morning, in his hiding place in Alpine county.

"The guerrilla warfare against the Salisbury government and the War Office is still in progress, but what is decribed in exaggerated phrase as an outburst of popular indignation has a suspicious sound of stage thunder. The bulk of criticism comes from the conservative press, but it will not be long before Parliament reassembles, and all these candid friends will be extolling the statesmanilke course of the ministers and the businessilite qualities of the Secretary of War.

"A series of public meetings protesting against the unscientific methods of conducting the war would be more significant than the complaint and grumbling of regular party organs respecting minor details.

"One of the sources of the disturbance has been Lord Kitchener's plane order," which has enabled caustic writers to lampoon British officers as carpet knights fighting Boers to alow music. The full text of that order has appeared, and the truth is now known that the superfluous baggage objected to by Lord Kitchener as laconistent with the mobility of flying columns, was not ordinary military equipment, but loot taken from the houses of Boers, notably kitchen ranges, furniture, harmoniums and planos, which ought to have been left behind when the lines of communication were reached."

The prosecution introduced evidence to show that Dr. Krause was in communication with Dr. Cornelius Borecksman, the public prosecutor of Johannesburg, who was executed September 30 last for treason, and that he urged the necessity for shooting or otherwise disposing of Douglass Foster, an English lawyer attached to Lord Roberti's staff, who was very active against the Boers.

The prosecution introduced letters in which Dr. Krause described Lord Milner as "an arch scoundrel and an enemy of Boer national existence, and a willing tool of the jingoes, and advising the burghers to break their oaths and shoot traitors."

The letters indicated that Dr. Krause acted as a channel of communication between the Transvalland the Boer government in Holland. The prisoner was remanded.

Aorro Island is surrounded by shallow sand banks, and the only means of approaching Tumaco is by the narrow river which is within easy range of the island.

The British steamer Quito, bound from Guayaquil, Ecuador, for Panama, and touching at ports between, anchored off Morro Island on the night of September 28, and weighing anchor at daybreak, started up the stream toward Tumaco. The Liberais fired a shot across her bows.

Suspecting the situation, she immediately turned, but 'rific shot's and one cannon continued to be fired at her, the former striking her several times and the latter once, the ball making a hole right through her above the water mark, though the damage in other respects was slight.

The Quito them steamed to the farthest point the tide would permit, and again anchored. The firing was now resumed, but it ceased after a few minutes, the Liberais having discovered the imprudence of their action. It is significant that shortly after the Quito incident became known, the British warship Icarus left Panama for a destination not made public, but presumably Tumaco.

SALT LAKE, Oct. 8.—Sport rivaling in excitement that of a buffalo hunt is scheduled to take place in Washington in excitement that of a buffalo hunt is scheduled to take place in Washington and Iron counties and across the Utah line into Northern Arisons on Thursday, when the people of the Cansan district expect to set forth and exterminate as many desert horses as can be rounded up. The hunt is booked to start at Pipe Springs. Where it will end, no one pretents to know.

The mustangs, or desert horses, are so thick in the district lying between Hurricane Ridge and Kanab Wash and over the old Cansan range to Mr. Trunbill that ranchers are complaining on many scores. The range is being eaten up, gentle hos.es are being run off, and many valuable animals are being shot by mistake by careless sportsmen firing at supposed desert horses. So that the populace has decided that the mustang must go.

Two years ago a similar decision was reached. During the progress of the hunt 300 were shot and left on the plain and 1500 were run down and dispatched, with the exception of 300 considered worth keeping. Predictions are freely made that this record will be broken Thursday. Prominent cattlemen and horsemen have the proposed drive in hand, and are marshalling their forces for an epoch-breeding round-up.

RIGHT KIND OF BREAKFAST.

Mrs. Grace E. Dutton of Throop Polytechnic Institute, Pasadena, delivered a free lecture on domestic science yesterday morning in the Young Women's Christian Association rooms on West Second street. The subject of Mrs. Dutton's lecture was "The Right Kind of Breakfast." The following dishes were prepared: Southern rice bread, cream of wheat, egg timbales with creem sauce, for all of which receps were given.

Mrs. Dutton said that the best thing in the world for breakfast is shredded wheat biscuit heated and browned on both sides, split open and filled with hananas or other fruit, and eaten with hot milk or coffee. Southern rice bread is an ideal food and should form a part of each day's meal. All cereals would be better if cooked in part milk and part water.

The date of the first lecture to be given by Mrs. Dutton in the regular Y.W.C.A. course is set for October 12.

piace the peace disturbers would disperse, but as soon as he had passed on they would congregate again.

Toward noon Hoffman applied to the Chief of Police for protection from the annoyance to which he and his customers were subjected, whereupon the Chief detailed an officer to remain on duty in front of the barber shop the remainder of the day, with instructions to arrest any man who tried to interfere in any manner whatever with Hoffman's legitimate business. The presence of the officer had a salutary effect, as the crowd of hoodlums cleared out and did not reappear again in force. An occasional union picket would walk by the shop to make a reconnoisance, but he aiways took good care not to say anything which might be construed as a disturbance of the peace in the officer's hearing.

It had been surmised that a demonstration might be attempted about closing time, 7 p.m., and Chief Eiton, himself, was on hand a little before that hour to help quell any riot that might occur, but the union minions were afraid to repeat the tactics of the previous night.

All day long the barber shop was crowded with customers, who were there, not because they wanted cheap work done, but because they wanted to encourage the men who had the backbone to stand up against union tyranny. Men patiently waited their turns for a shave, a haircut, a bath or a shine, and one enthusiastic individual declared that he intended to indulge in tonsorial luxury every day, just to show his good will toward the barbers who had the courage to fight the union.

Department Managers' Reception Today. Crowds came to see the new store yesterday—we expect more today. Our Department Managers have put forth every effort in their power to make it comfortable and pleasant for you.

You will find the prettiest goods of the season on every hand. All the new conceptions of the milliner's and tailor's art displayed in reckless profusion. Many were the compliments showered on the management for the beautiful display and the spacious, well-lighted salesrooms. One lady remarked "It's such a relief to get into such a light, airy store." There'll be special sales in all departments again today. Join the throng. You can make your pleasure profitable by attending our Department Managers' recention. our Department Managers' reception.

Cloak, Suit and Millinery Section

As the latest addition to the departmental family of the Broadway Department Store. I have just arrived to take charge of the Cloaks, Suits, Ready-made Stuff and Millinery. I was told before coming here that these departments were the liveliest, most aggressive and fastest growing in the entire West. It's to help them grow faster, greater and more useful to the public of Los Angeles that I am here. Two things I recognize as essential to the public of Los Angeles that I am here. Two things I recognize as essential to this growth—VALUES and SERVICE. By values I mean the best that brains, meney, experience and taste can secure. Best not from point of cheapness alone, that's understood here—but best in point of style, in assortment, make and finish, and all that goes into the melding of satisfactory garments. Wherever improvement is possible in these lines, expect it. By service I mean attention in the store—thoughtful, intelligent, painstaking attention to every want. The careful and conscientious fulfilling of every premise—having what the public want when they want it, and at a less price than they expected to pay. This store has been pre-eminent in this matter in past years, still it has not reached its ideal of perfection in this or any other direction. Through this combination of values and service applied to these departments we expect them to fill a still wider sphere of influence to better satisfy the wants of our ever increasing clientels.

Silk and Dress Goods and Linings.

This department has profited greatly in point of size, light and display room in moving into its present quarters. The stock is in better shape than ever before to supply the demand of its ever increasing trade. This season we are showing some of the finest novelties we have ever handled, as well as a higher grade of the staple materials. During this Department Managers' Reception I cordially invite all of my many friends, as well as the entire public, to come in and inspect one of the handsomest assertments of dress goods and silks that it has been my good fortune to display. Our lining section, always extremely busy, is in a position to offer still greater inducements to the purchasing public. Our stock is more complete than ever before, and in addition to the staples which we always carry in great abundance, we are now showing some high-grade novelties in skirtings and fancy linings.

HISTORY OF 'PHONES.

Academy of Sciences Hears How They Work—Paper Read on Academies of the World.

The Southern California Academy of Sciences held its regular monthly meeting last night in Ebell Hall. An interesting illustrative talk was made by Prof. J. H. Shults of the Normal School on the subject, "Modern Telephony," and a paper entitled "Origin, History and List of the Academies of the World," was read by G. Major Tabor, secretary of the geological section of the academy.

Books, Stationery and Drugs.

In taking control of these departments. I fully realize the almost unlimited possibilities of this branch of the fastest growing busi-ness in the West. My years of experience with large department steres in the East and Middle West have fitted me for the task. With

such spiendid buying facilities as the Broadway Department Store has at its command, and with the firm hold that it has on such a rapidly increasing trade, 'twill be an easy matter to increase the sales of this section. During this Department Managers' Reception I shall put out extra efforts to make it an inducement for the purchasing public to patronize my departments. I am showing a solendid ateck of new seasonable merchandise in my various lines.

splendid stock of new, seasonable merchandise in my various lines, and hope to see every man, woman and child in Los Angeles in my aisle within the next two days,

H. Vinnell, and immediately went to said room and found said Vinnell, and arrested him and held him in custody for about one hour.

Nousell Confesses.

"Said Vinnell, in respinse to questions, denied for a long time that he had any connection with said illegal and fraudulent transactions, but finally confessed that he was the person who had been in said office and opened the said deaks on said night, and that he had on numerous other occasions prior, thereto entered said room and opened said deaks, and with the assistance of numerous confederates had made copies of the books, records, contracts, letters, private telegrams and other documents in the deaks of the plaintiff, and which work he said had been done late in the night time, and in his private room in said Rogers Block. Said Vinnell, in his confession aforesaid, admitted and stated that he had been employed to do said work by the defendant. Los Angeles Lighting Company, and its officers and agents, and had been regularly paid by them therefor, and that the copies made and furnished by him had been turned over and delivered to the said company, its officers and agents, and had been regularly paid by them therefor, and that the copies made and furnished by him had been turned over and delivered to the said company, its officers and agents, and had been regularly paid by them therefor, and that the copies made and furnished by him had been turned over and delivered to the said company, its officers and agents, have in fact used the said copies so furnished in every possible way to obstruct and injure the plaintiff, and to thwart it in its "urnose of plaintiff, and to thwart it in its "urnose of putting in a gas plant and supplying gas to the inhabitants of the city of Los Angeles at lower rates than they had ever before been able to obtain, and thereby breaking up the monopoly which the said Los Angeles Lighting Company intends to continue to use the said copies for the same purposes unless restrained from so doing."

EQUITABLE'S PRAYER. VINNELL CONFESSES.

EQUITABLE'S PRAYER.

EQUITABLE'S PRAYER.

The prayer of the complaint asks damages in the sum of \$500 to recompense the plaintiff for time and money spent in devising ways and means to detect Vinnell and his accomplices, and \$25,000 as exemplary damages, besides cost of suit. The most important point in the prayer, however, is perhaps the injunction asked for—"that defendants, pending this action, be restrained from making any further use of the copies taken from the books, records, contracts, letters, telegrams and other documents found by them in the office of the plaintiff, and that upon the final hearing such injunction be made perpetual."

LIGHTING PEOPLE DENY.

H. M. Corlette, assistant general manager of the Los Angeles Lighting Company, when interviewed last night, stated that his company had nothing at all to say about the sensational suit. "We know nothing about any such action and are inclined to think that it must be some sort of a fake to boom the new concern," said Mr. Corlette. "Certainly, we shall deny most vigorously all the ridiculous allegations that are said to have been set forth in the complaint. Yes. Mr. Vance is most closely connected with our business, but I am sure that he can say nothing about his alleged connection with the preposterous charges."

CRIMINAL END OF IT.

Both Carver and Winans aver that LIGHTING PEOPLE DENY.

Both Carver and Winans aver that they did not see either Vance or Kennedy on the night of the capture, but Carver is sure that he has outside evidence sufficient to connect him with the details of the alleged conspiracy. Several unknown persons were heard to skedaddle, when the onslaught was made; but nobody got eyes on them. Carver and Winans each carried a shotgun to emphasise their positions.

en All Wonder What Mr. wen Will Introduce to Correct the Some Mistakes in the Report

Almost the sole topic of conversation in the offices and corridors of the City fall yesterday, and among politicians and business men on the street, was he startling report on illicit liquor elling presented to the Council on Monday by Chief Eiton. It has been mown for a long time that liquor was old without a city license in houses of ill fame and in so-called social club, but it was a genuine surprise that the mactice is so widespread.

dill fame and in so-called social cirbs, but it was a genuine surprise that the practice is so widespread.

Everywhere the report is regarded as a bold move by the Council. Surprise was expressed by many yesterday that such a step should be taken by the municipal legislature. Although the City Fathers are very non-communicative on the matter, it is probable that they are now wondering just why they called for the report. Suddenly air. Sowen has become the cynosure of all eyes. He is the prophet that is expected to lead them all into the promised land of popularity. And the task is by no means an easy one. Every one of the City Fathers stands at suard when the subject is mentioned. Among the nine Councilmen there are just nine opinions as to what should be done. Some ideas are diametically opposed to others. To run he gauntiet successfully is Mr. Bown's self-appointed task.

In the hurried preparation of the result a few mistakes were made. In almost every instance these errors arose from the fact that the government is self-appointed task.

LICENSE TRANSFERS GRANTED, LICENSE TRANSPERS GRANTED. At the section of the Police Commission yesterday morning Commissioner Eceney gave notice that he will move an amendment to certain rules of the department at the next meeting. The rules referred to provide for the payment of officers during sickness and make it possible for a policeman to draw half pay from the department tunds and half pay from the police prasion fund, making full pay for teening days. As the rules contemplate that officers shall receive but half pay during fillings they will be amended accordingly.

Many Boundaries Jostled in Four and Seventh Wards of This City-White Monument May Go to Court-house Grounds—After New Hospital.

Changes in the boundaries of various voting precincts, as readered necessary by the law that fixes the number of voters in each precinct as near 200 as practicable, were suggested by the Board of Supervisors yesterday. But no formal order establishing the proposed boundaries has yet been passed at t present the matter is with County Surveyor Smith, who is busy running the lines to see if they be actually inclusive of the territory sought to be bounded. As soon as Mr. Smith reports, formal action will be taken.

It may be stated that most of the changes proposed are due to increase of population.

In Supervisoral District No. 1, which Supervisor Longden supervises, changes will be made in Pasadena and Covina, and possibly Whittier. The same boundary lines for the eight precincts of Pasadena will be adopted by the board, as have recently been adopted by the municipality. At Covina there are to be two precincts instead of one. The recently incorporated town of Covina will make one precinct, to be known as the Covina City precinct, while the lines of the old Covina precinct will not be disturbed, nor its name. MONUMENT SITE.

The Supervisors were waited upon informally yesterday by a committee representing the White Memorial Fund. Isidore B. Dockweiler, Esq., introduced Joseph Scott, Esq. who asked the board for a perpetual guarantee that, in case the monument to be erected in memory of the late Hon. Stephen M. White shall be placed in the Courthouse grounds, it will be properly cared for and protected by the county. Whatever the law may be in these premises, popular opinion is undoubtedly favorable toward an acceptance of such a trust by the county's representatives.

Just where the monument will stand,

sentatives.

Just where the monument will stand, provided its site is given to the county grounds, is still undetermined. It is more than likely, however, that it will stand on the Broadway side. An elegant palm tree now occupies the place most desirable, but unless it is moved the monument may be placed further north toward the Temple-street driveway.

The County Surveyor was ordered to survey and make a map of the County

court.

In discharging Hicks, Judge Allen said: "The defendant's conduct on that occasion, as outlined in the transcript, was that of a criminal, He acted strangely. I dislike to turn anyone with a criminal mind loose on the community, but it is justice to this man. I believe, that he should have his freedom, for he made no attempt, as charged."

Hicks, as he disappeared, did not seem especially thankful that a technicality had saved him much time and annoyance.

Almost the sole topic of conversation in the offices and corridors of the City Hall yesterday, and among politicians and business men on the street, was the startling report on illicit liquor elling presented to the Council on Monday by Chief Elton. It has been mown for a long time that liquor was sold without a city license in houses of ill fame and in so-called social clubs, but it was a genuine surprise that the practice is so widespread.

Everywhere the report is regarded as baid move by the Council. Surprise was expressed by many yesterday that such a step should be taken by the municipal legislature. Although the City Fathers are very non-communicative on the matter, it is probable that they are now wondering just why they called for the report. Suddenly ar. Bowen has become the cynosirs of all eyes. He is the prophet that is expected to lead them all into the promised land of popularity. And the task is by no means an easy one. Every one of the City Fathers stands a suard when the subject is mentioned. Among the nine Councilmenthers are just nine opinions as to what should be done. Some ideas are diametrically opposed to others. To run the gauntlet successfully is Mr. Bowen's self-appointed task.

In the hurried preparation of the report a few mistakes were made. In al-

winder another name than that ed on the government books. The meeting of the Police Commis-saterday, Chief Elton stated to a ur that he will take no further intil the Council has outlined the for him to follow. This will be I when Mr. Bowen presents his tes to the Council next Monday.

POLICE COMMISSION.

LICENSE TRANSFERS GRANTED, LICENSE TRANSFERS GRANTED.
At the session of the Police Commission resterday morning Commissioner Keeney gave notice that he will move an amendment to certain rules of the department at the next meeting. The rules referred to provide for the payment of officers during sickness and make it possible for a policeman to draw hair pay from the department funds and haif pay from the police pension fund, making full pay for twenty days. As the rules contemplate that officers shall receive but half pay during illness they will be amended accordingly.

that omera shall receive but have during illness they will be amended accordingly.

Nothing was said in open session about the many restaurant liquor license apolications that have been laid on the ice for the past few weeks.

On recommendation of the Chief the following transfers were granted: C. Arthur Gore, saloon license at No. 107-129 Market street, from E. Tisnerat; Shap & Conner, saloon license at No. 107-129 Market street from M. M. Siglie; Darmody & Schaffer, change of location for saloon license from "Belinout," northwest corner of Pifth and Main street from M. M. Siglie; Darmody & Schaffer, change of location for saloon license from "Belinout," northwest corner of Pifth and Main street from Darmondy & Staffer.

The application of Antone Sauttill for restaurant liquor license at No. 5730 Central avenue was denied on motion of Mr. Thorpe. H. Pierroni once ran a beer garden at this location, and after his license was taken away the police discovered a "bind pig." The neighbors have always objected to having a license granted at the location.

The following applications were referred to the Chief: P. B. Ray, transfer saloon Brense et No. 225 Wost

And they will all have to get liquor licenses.

CREASED POPULATION.

Many Boundaries Jostled in Fourt and Seventh Wards of This City-White Monument May Go to Courthouse Grounds-After New Hospital.

Changes in the boundaries of various voting precincts, as rendered necessary by the law that fixes the number of roting precincts, as rendered necessary by the law that fixes the number of voters in each precinct as near 200 as practicable, were suggested by the Board of Supervisors yesterday. But no formal order establishing the proposed boundaries has yet been passed, At present the matter is with County Surveyor Smith, who is busy running the lines to see if they be actually inclusive of the territory sought to be bounded. As soon as Mr. Smith reports, formal action will be taken. It may be stated that most of the changes proposed are due to increase of population.

In Supervisoral District No. 1, which Supervisoral District No. 1, which Supervisoral District No. 1, which swill be made in Pasadena and Covina, and possibly Whittier. The same boundary lines for the eight precincts of Pasadena will be adopted by the board, as have recently been adopted by the municipality. At Covina there are to be two precinct instead of one. The recently incorporated town of Covina will make one precinct, to be known as the covina City precinct, while the lines of the old Covina precinct will not be disturbed, nor its name. It is smaller merely because Covina City precinct takes a chunk out of the middle of it.

Just where the monument will stand, provided its site is given to the county grounds, is still undetermined. It is more than likely, however, that it will stand on the Broadway side. In discharging Hicks, Judge Allen said: "The defendant's conduct on that occasion, as outlined in the transcript, was 'that of a criminal. He acted strangely. I dislike to turn anyone with a criminal mind loose on the community, but it is justice to this man. I believe, that he should have his freedom, for he made no attempt, as charged."

Hicks, as he disappeared, did not seem especially thankful that a technicality had saved him much time and annoyance.

Simon Johnson, a negro of the "moke" variety, was arrested yesterday at the instance of William Hutchison, an officer of the local Hod Carriers' Union, on the charge of petty embezslement. The complainant alleges that Johnson appropriated \$7.50 belonging to the union to his own use, while acting as the clerk, agent and servant of the said union. Johnson has been a steward of the union on one of the jobs where union hod carriers are employed, and it is alleged that \$7.50 was intrusted to him for the benefit of the union, by one Will Alvarez. This was money collected from the members in the form of dues, but it is alleged that Br'er Johnson spent it is alleged that Br'er Johnson spent the money, instead of putting it into the treasury of the union. When Johnson was arraigned in the Police Court he pleaded not guilty and expressed a willingness to proceed instantly with his trial. The witnesses for the prosecution were not present, however, so the case was continued until today at

from further attendance until 2:30 p.m. At that hour the court ordered the impanelling of the jury to proceed, but during the recess the prosecution and the defense had arrived at a compromise, by which it was agreed that one defendant would piead guilty, if the other were dismissed. This suited all parties better than a trial which would perhaps have dragged along for four or five days. As Sam's plea of guilty was accordingly received and a fine of \$50 was inflicted upon him, while Ng Chung, on motion of the District Attorney, was discharged. As the siris mounted the steps of a swell residence in a fashionable quarter they were joined by another dimpled maid in similar costume, and just then a chic brougham drew up, from which alighted a Figueroa-street belie gowned with the same simplicity. So the curious reporter crept in behind the scenes, and there in a modern drawing-room were spread old-fashioned quilting frames, on which were three quilts almost filling the apartment, and around them were gathered a dozen or more society girls stitching, snipping, chattering and gossiping, not about routs and balls, paring, spelling and husking bees, as their grandmothers used to do, but about golf, "putting tees," tennis, and Harry Jones' new automobile!

But they deftly and swiftly piled their roudles setting next stitches

tees," tenpis, and Harry Jones' new automobile!

But they deftiy and swiftly piled their needles, setting neat stitches along the outlines of the marvelous designs with as much interest in the work as ever their great-grandmothers showed, and there were the same popular patterns, too; the "rising sun," with its crude red and yellow callcoes; the "sunflower," in green and gold; the gorgeous "evening star," for let it be known the old-fashioned quilts of fifty—yes, seventy-five—years ago, are "coming in" again, and twentieth-century maids are busy in their construction.

Every up-to-date bride must have at
least one of these highly-treasured
heirlooms; so as soon as a girl is engaged she projects her quilt and issues
invitations to a quilting bee. On this
occasion three newly-engaged girls
were entertaining together, and after
the bee came tea, a genuine old-fashioned spread, and later came the men
for an informal dance. These small
functions are kept sub rosa, as girls
who will sanction a formal announcement of their engagement do not like
to publish the progress of their preparations, so few of these quilting bees
have been chronicled, but the girls are
having them, just the same; in fact,
there were three last week, which looks

The dining-room decorations were especially attractive, being carried out with pink and white carna ions and ferns, and in the center of the table rested a large bowl of California violets. The pink and white place cards were ornamented with water color sketches of musical instruments, and the guests found their places at the table by the picture on the card of the instrument played by them. The most interesting session of the association will be held this evening, at which time the annual election will occur and the place for holding next year's meeting will be selected.

Los Angeles has had the convention twice, Santa Barbara and San Diego once each.

It is probable that some very interesting points will be brought out in the discussion of the school question this evening. Several of the orators of the association are saving up ammunition to expend on this question. Lack of care for the teeth of school children and how present conditions can be remedied will be the keynote of the discussion.

Timely Information from a Boy Caused Wong Bin's Capture in Pasa-

Fred Fuller, an eighteen-year-old youth, who lives with his father at No. 524 Mission Road, is credited with having caused the speedy arrest of Wong Bin, the murderer of Chew Yok Toy. It was Fuller who telephoned to the detective office that a suspiciously acting Chinese was on Mission Road Monday evening waiting for a Pasadena car. On this information, Capt. Bradish communicated with Detective Ritch in Pasadena and he later apprehended the murderer when he arrived in the Crown City.

The remains of the murdered Chinese are still at the undertaking rooms of Carrett & Co. An inquest would have been held yesterday, but the Coroner could not secure witnesses, and it was postponed. A brother of the murdered man will arrive here from Fresno today.

WOMAN'S BUSINESS ABILITY.

Mrs. Rice read a paper on "The Unbusinessike Woman."

"When asked to address the parliament on this subject," she said in part, "I immediately began eagerly looking about me for the unbusinessike woman. For I feit within me the strangs of a righteous desire to call her to account in good, round terms and with severe promptitude set her feet in businessike paths, But after many days, eagerness was succeeded by astonishment, and that by deep humility, when, happening to look into the mirror, I beheld her gazing straight into my face.

when, happening to look into the mirror, I beheld her gasing straight into my face.

"It is barely possible that there are those now within sound of my voice who might see, as in a looking glass, the same woman. There must be many of her somewhere, for she is the object of universal and sarcastic criticism."

Mrs. Rice gave a humorous description of the various sins of the unbusinesalike woman, ending with a scoring of those of the particular sort who contribute to all manner of philanthropic objects, but refuse to pay a full day's wage in the poor widow employed to clean house, because she cannot and will not work from 7 a.m. to 6 p.m.
"Can the unbusinessilke woman," continued Mrs. Rice, "fell us why she has so little sense of responsibility? Why her time, and word, and daily routine seem of so little value? Why she hangs limply on the word of the head of the house, and yields meekly to her husband in a fashion unbearably nauseating?"

"You understand that every Oxford man who takes his master's degree becomes a clizen and has a voice and vote in the government of this academic city. With all this, however, woman at present has nothing to do, but it is pleasant for us to understand something of the responsibility that may fall to the lot of our sisters in the years that are to come."

Continuing, Miss Perley outlined the history of Oxford, described the process of matriculation and gave the audience a glimpse of the life of a woman student.

A "YOUNG" SPEAKER.

Miss Mary Foy, who was to read the last paper of the afternoon, having been delayed a little by her school duties, a call was sent forward for a recitation from Mrs. Rebecca Spring, who, accordingly, came to the platform, and was introduced by the president as the parliament's "honored member, ninety years young." Her recitation, "The Young Men's Feet Are at the Door," by Mary Austin, was received with an enthusiastic round of applause. A vote of thanks to her was moved by Miss Margaret Fette and a Chautauqua salute by Mrs. Chapin. Both were heartily given.

Santa Rosa Rescues a Fisherman Miles From the Main Land.

SAN DIEGO, Oct. 8 .- [From The Times' Resident Correspondent.] Jesus Garibaldi, Portuguese fisherman, was rescued this afternoon by the Santa Rosa after floating around the ocean clinging to his capsized boat for eleven ? hours. Following his usual custom he started last night at 10 o'clock to sail his salmon boat out to the kelp beds where he intended to tie up and wait for the morning. There was no wind and he did not reach the kelp until 3 a. m., when the wind began to rise. He lost control of his sail and was capsized, the boat turning bottom upwards. He scrambled out and hung to the hull until the Santa Rosa arrived at 1:30 p. m., when he was found half dead. He recuperated speedily. The boat has not yet been reON THE NAGS.

SPORTY GRAN'MA.

She was an old woman who will never see sixty-five again; one of these nice, fat, motherly old creatures with a toboggan silide of avoirdupois from the belt line to the knees as she sat. She bet on every race, and when she lost she pouted out a fat under lip and looked black as a thunder cloud and roasted the peanut butcher for giving wrong tips.

"Thunder, it aint my fault," protested that youth, "I couldn't get out and shove him in a winner."

But she resolved to quit it after that, Only when the odds were posted for the next race and the boy came through with those entrancing little tabulations she couldn't resist looking down on his book, just to see how the thing was going.

He talks about "dope books," and
"playing to show," and the other technique of the track with a kind of solemn awe for his own erudition. And

to be desperate, and he wouldn't descend to the methods of society girls.

PERFECTLY "ORFUL."

They're the limit—society girls at the races. A highbinder is a praiseworthy and moral person in comparison.

There was one of them coming out on the street car with a hapless victim who couldn't wriggie free.

She said she had some money to bet on the races; she said she only had a little, but it was every cent that was left from her allowance. He must have been an experienced victim, for when she said that a kind of terror seized him.

He suggested that it would be just dandy fun for her to pick the winners all by her little self, and him to pick his winners, and at the end of the day they would compare notes, and see who had won the most times. Nit! She rang him back. It was no start.

He had a newspaper in his pocket, and he pulled this out in a kind of feverish gayety. and tried to get her to choose her horses from it. It was his last cartridge, and it missed fire.

She was so sweet when she said to him: "Do you know I am going to turn over all my money to you, and let you bet it just as you think best."

She knew mighty well that no fellow would have the nerve to come back to the grand stand and tell a girl that he lost all her money. The only thing he could do was to lie politely and make good her losses with as good grace as possible.

He knew that, too: and all the sunshine faded out of his life. Poor fel-

He knew that, too: and all the sunsine faded out of his life. Poor fellow!

He was not the only man whose heart was filled with woe. Once when the excitement was at its tensest, a shrill treble wail of deep distress rose out of the stillness: "Mamma, this peanut's got a worm in it!"

There weren't many people there yesterday.

Most of them were women, who got in free.

There were three harness races and

THE 2:21 PACE.

Ferndale, in the next race, played about the same capers as Luiu Wilkes, going off his feet all the time. There were five starters in this race. One of them, Fannie G., ambled in absent-mindedly about the time of the next race, and Bendini, who wore pacing harness, came jumping over the line like a hobbled burro. Maud Wilkes paced a beautiful race in all three heats. Wood Nymph, who came in second twice out of three times, is an ugly old brute, on the same principle that girls named Lily are always black as your hat.

very large proportion of the population of the State of Pennsylvania. Before the revolution they were generally believed to represent ope-third, and since that day they claim for themselves fully that proportion. They have profoundly influenced the history of Pennsylvania outside of Philadelphia; and they for themselves are quite zure that this influence has been for the good of the State. But others have strenuously maintained that their influence has been injurious to our commonwealth's progress and higher interests. They have been too slow, too much self-centered and withdrawn from modern currents. But for the Germans, they say, Pennsylvania would now be the first State and New York the second in the Union.

Among the nations which 200 years ago contended for the possession of the New World, Germany was not numbered. The Spanish, Porfiguese, French, Dutch, Swedes and English strove for the great prize, but the country known as Germany was not then a nation. The German people were split up into provinces, fiefs and principalities, largely at the mercy of the other powers, and much persecuted by France. The German immigration which has poured so many Germans into the United States, especially in the West. In colonial times very few Germans went to the southern colonies. In fact, this German immigration was as rough, if not rougher, than the worst of the European peasant immigration which we have seen landing in New York in our own time. The English colonists did not like them and the English Quakers were a little sorry that they had started the German movement.

The Quakers had been anxious to have the thrifty sects which were of their own way of thinking, but they did not care for the Lutherans and retormed, who, hearing that there was a chance in Pennsylvania, had come part. A CLEAR"HE of Tutt's Liver Pills.

LORDSBURG.

PLENTY OF WATER.

LORDSBURG, Oct. 8.—[From The Times' Resident Correspondent.] The La Verne Land and Water Company has completed its second well. The company now has two wells in one shaft, 6x5 feet. The first well is down 308 feet and the second 341 feet. A curious feature of these wells is that, being only 5 feet apart, the ground through which they were bored was of different formation. In one well the stratum of water gravel was 40 feet below the stratum of water gravel was 40 feet below the stratum of water gravel in the other well, so that it is thought another source of water supply was struck. The company now pumps 50 per cent. more water than before, and has more water than its stockholders can use.

LONG BEACH, Oct. 8.—[From The Times' Correspondent.] The Long Beach Ebell opened its season of literary and social work Monday afternoon with a reception to its members at the home of Mrs. Harry Barndollar at No. 421 Third street.

The president, Mrs. C. F. A. Johnson, delivered an address of welcome. A vocal duet was rendered by Mis. E. H. Jackson and Miss Carrie Hart with accompaniment by Miss Stella Scott. An article on "Club Women" was read by Mrs. J. A. Reeve. Mrs. Annie Gowan of Los Angeles was present by invitation of the president.

Mrs. R. H. Tripp and Mrs. Adelade finithenor were chosen as delegates to Mrs. R. H. Tripp and Mrs. Aures as Tichenor were chosen as delegates to the coming Woman's Parliament in Los Angeles and Mrs. H. C. Dillon was named as an alternate. Extracts from a letter from Dr. Helen Denamore in London, a former president of the Ebell, were read.

CEMETERY IMPROVEMENTS.

The importance of supplementing the work done by private subscriptions for the improvement of the Long Beach cemetery is being urged upon the City Trustes. The street leading to the burial place needs to be lined with straw for a quarter of a mile or so and the grading and graveling of the avenues in the cemetery is one of the most urgent needs. Among the improvements which have been made there within the past few months is the laying of water pipes and hydrants on as to accommodate all of the grounds, the building of a substantial fence, which insures the graves from depredation by roving animals, and the building of a toolhouse.

SAN PEDRO. Oct. 8.—(From The Times' Correspondent.] W. S. Hook of the Los Angeles Traction Company paid this city a visit today. When asked concerning the probable date of the completion of his company's electric road from Los Angeles to this town, he said that the chances were fair for the work to be done by January 1. The settlement of the strike in the East had made the early delivery of the needed material more certain, but until it had actually arrived it would be difficult to figure on the time of the finishing of the work.

Mr. Griswold approached his daughter, and, touching her on the arm, said;
"Don't you remember your papa?"
The girl started and exclaimed;
"Keep your hands off me, sir."
Dr. Griswold was much affected, and
the tears streamed from his eyes. His
attorney moved that the case be dismissed, as the father had no wish to
remove her by force. Judge Torrance
ordered the case dismissed. Dr. Griswold says that he abandoned the case

Suitable Resolutions on the Death of President McKinley Adopted-Speeches, Music and Reminiscer A meeting of the Ohio Society was held in Blanchard Hall yesterday evening and resolutions commemorative of the grand life and tragic death of President McKinley were introduced and passed.

Charles Cassat Davis, Esq., vice Charles Cassat Davis, Esq., vice-president of the society, presided at the meeting. Judge Gilbert D. Munson, Judge M. T. Allen, Charles Cassat Davis, Esq., E. M. Guthridge and Prof. J. M. Guinn, had been appointed a committee to prepare and present the resolutions, which were in part as fol-lows:

resolutions, which were in part as follows:

"A Christian gentleman, a wise statesman, a patriot soldier, our fellow-citizen of Ohio, the President of the United States of America, has fallen-murdered by the hand of an anarchist assassin. Our grief is more intense and heartfelt, because William McKinley was nearer and closer to the hearts of the people of his own State than to other people.

people of his own State than to observe people.

"His had been the clean, upright life of the good citizen; the successful life of lofty inspired ambition; the death of the law-respecting Christian martyr. That he lived as he did; that he died as he did, is our one ray of comfort. The law has taken its course surely and swiftly. His murderer has been legally and orderly tried and condemned under the law of the land, and will soon, in like manner, be executed.

and will soon, in like manner, be executed.

"We, as the Ohlo Society of Southern California, may do much in a legal and proper way to make such crimes not only impossible, but unthinkable, because impossible, and unknowabls. We pledge ourselves as a society that we will by all legal methods, create a public sentiment against any and all societies, which as such societies or associations, companies or assemblages, promote or countenance vicience and lawlessness, as means of accomplishing their ends."

The resolutions were read by Judge Munson, who was personally acquainted with President McKinley, and who followed with a brief talk, relating many of the noble acts of the deceased.
